COMMITTEE OF CONSULTING EDITORS.

WALTER B. CANNON, M.D.
HARVEY CUSHING, M.D.
DAVID L. EDSALL, M.D.
REID HUNT, M.D.
ALLAN J. McLAUGHLIN, M.D.
ROBERT B. OSGOOD, M.D.
MILTON J. ROSENAU, M.D.
EDWARD C. STREETER, M.D.
ROGER I. LEE, M.D.

ADVISORY COMMITTEE.

EDWARD C. STREETER, M.D.
WALTER P. BOWERS, M.D.
HOMER GAGE, M.D.
JOEL E. GOLDTHWAIT, M.D.
LYMAN A. JONES, M.D.
ROBERT B. OSGOOD, M.D.
HUGH WILLIAMS, M.D.
ALFRED WORCESTER, M.D.

ABSTRACTORS OF CURRENT LITERATURE.

GERARDO M. BALBONI, M.D.
JOHN BRYANT, M.D.
LAURENCE D. CHAPIN, M.D.
R. S. EUSTIS, M.D.
JOHN B. HAWES, 2D, M.D.
ROGER I. LEE, M.D.
EDWARD H. RISLEY, M.D.
GEORGE G. SMITH, M.D.
WILLIAM D. SMITH, M.D.
LESLEY H. SPOONER, M.D.
WILDER TILESTON, M.D.
EDWARD L. YOUNG, JR., M.D.

REPORTERS OF PROGRESS.

A. E. AUSTIN, M.D.
P. CHALLIS BARTLETT
JOHN BAPST BLAKE, M.D.
JOHN T. BOWEN, M.D.
EDMUND W. CLAP, M.D.
ALGERNON COOLIDGE, M.D.
ROBERT L. DE NORMANDIE, M.D.
JOHN B. HAWES, 2ND, M.D.
ROGER I. LEE, M.D.
JOHN LOVETT MORSE, M.D.
H. P. MOSHER, M.D.
ROBERT B. OSGOOD, M.D.
STEPHEN RUSHMORE, M.D.
HENRY R. STEDMAN, M.D.
PERCY G. STILES, M.D.

JOHNS HOPKINS HOSPITAL

INDEX TO VOLUME CLXXVII.

AUTHORS.

A

Amsden, H. H. Hemorrhage following tonsillectomy, 594.

Anders, J. M. Diagnosis of focal sepsis, 319.

Anderson, V. V. A comparative study of feeble-mindedness and psychopathic personality among offenders in court, 210; The immoral woman as seen in court, a preliminary report, 899.

Alexander, H. L. Observations at the Peter Bent Brigham Hospital on cases of pneumonia in relation to types of pneumococci and the serum treatment of Type I cases, 874.

Armstrong, Donald B. Community health and tuberculosis demonstration at Framingham, 660.

B

Babcock, H. L. Some observations on the Barany tests as applied to aviators, 840.

Bailey, Karl R., Slack, Francis H., and Castleman, Philip. A year's work with the Wassermann test, in the Boston Health Department laboratory, with especial reference to doubtful reactions, 180.

Barnes, George Edward. The rationale of neurasthenia and of disturbances of arterial tension, 543; The etiology of disturbances of the heart beat, 588.

Barringer, B. S. Radium treatment of bladder and prostatic carcinoma, 444.

Bartlett, P. Chubbs, and Hawes, John B., 2nd. Progress in tuberculosis: a collective abstract of important articles published during the year 1916, p. 537.

Benet, George, and Simmons, C. C. Hodgkin's disease: a report on the cases observed at the Collis P. Huntington Memorial Hospital from April, 1913, to July, 1916, with special reference to treatment with radium and the x-ray, 819.

Billings, Bernice M. What becomes of the discharged consumptives? 664.

Blue, Rene. Botulismus: report of two fatal cases, 559.

Blake, Mabelle B. The defective girl who is immoral, 492.

Boardman, William P. Syphilis in internal medicine, 12.

Boos, William F. The treatment of gastric hyperacidity and hypersecretion, 469.

Bosworth, A. W., and Bowditch, H. I. Studies of infant feeding. viii. The mineral constituents (ash) of milk, 248; Studies of infant feeding, ix, 864.

Bowditch, H. I., and Bosworth, A. W. Studies of infant feeding. viii. The mineral constituents (ash) of milk, 248; Studies of infant feeding, ix, 864.

Bowditch, Vincent Y. Introductory remarks by the president, 653.

Bowen, John T. Report on dermatology, 154.

Bowman, John G. The standardization of hospitals, 283.

Brackett, E. G., and New, Way Sung. Treatment of old ununited fracture of the neck of the femur by transplantation of the head of the femur to the trochanter, 351.

Bradley, R. M. Health insurance and the medical profession—from the financial and administrative point of view, 698.

Bradley, Theodore J. A study of some percentage solutions, 843.

Burnap, Walter L. The founding of the Berkshire District Medical Society, with notes on the first period of the existence of the Massachusetts Medical Society, 720.

C

Capps, Joseph A. Efficiency tests applied to the attending and house physicians at the Cook County Hospital, Chicago, 286.

Caro, Helman. Intestinal adhesions and peritoneal bands in epileptics, 208.

Carstens, C. C. What it means to have non-committed feeble-minded in the community, 487.

Castleman, Philip, Slack, Francis H., and Bailey, Karl R. A year's work with the Wassermann test, in the Boston Health Department laboratory, with especial reference to doubtful reactions, 180.

Chadwick, Henry D., and Morgan, Roy. Diagnosis of tuberculosis in children, 138.

Chase, Richard F. Treatment of the visceroptotic, 290.

Christian, Henry A. The significance of arrhythmias and systolic murmurs in relation to cardiac efficiency, 750.

Clark, L. Pierce. The diagnostic importance of recognizing the absence of the epileptic make-up in states simulating idiopathic epilepsy, 915.

Clark, W. Irving. The adjustment of physical defectives to employment, 578.

Cline, Samuel. Thoracophagus: an unusual cause of dystocia. Report of a Case, 561.

Cobb, Carolus. Some medical practice among the New England Indians and early settlers, 97.

Cochrane, Robert C. The technic of abdominal Cesarean section, and a report of sixty cases, 410.

Codman, E. A. Uniformity of hospital morbidity reports, 279.

Cohn, Alfred E. The basis of certain changes in the electrocardiogram, 753.

Conlon, Frank A. Essential shrinking of the conjunctiva occurring in acute and chronic pemphigus, with a report of two cases, 206.

Cotting, William F., and Cotton, Frederic J. A brief report of cases of fracture of the skull and spine, from the fourth surgical service, Boston City Hospital, 519.

Cotting, William F., Shortell, Joseph H., and Leary, Timothy. The treatment of wounds with normal (beef) serum. Studies in serum therapy. vi, 622.

Cotton, Frederic J., and Cotting, William F. A brief report of cases of fracture of the skull and spine, from the fourth surgical service, Boston City Hospital, 519.

Coues, William Pearce. Fracture of the cuboid bone, 117.

Courtney, J. W. The temperature as a valuable guide to diagnosis, prognosis and surgical treatment in cranio-cerebral traumatisms, 511.

Cronin, Herbert J. The establishment of a first-aid hospital in industry, 580.

Curran, John F. Foreign bodies in the eye, 435.

Curtis, Francis George. What should constitute reportable tuberculosis, 141.

Cutler, Raymond W. Physical examination of factory employees: two thousand consecutive cases and the defects found, 627.

D

Dana, Harold W. The meningeal syndrome and other sources of error in pyelitis, 702.

Davis, Michael M., Jr. Relations of prenatal and postnatal work, 294.

DeNormandie, Robert L. Hemorrhage: accidental, inevitable, post-partum, 391.

Donoghue, F. D. Mesothorium and combination methods in the treatment of cancer, 365.

Downing, Andrew F. The medical profession and social progress, 237.

Dunne, William. Methods of preparing and using radioactive substances in the treatment of malignant disease, and of estimating suitable dosages, 787.

Dunne, William, and Greenough, Robert B. Report of results of radium treatment at the Collis P. Huntington Memorial Hospital by the Cancer Commission of Harvard University, 359.

Dunbar, Frank H., and Leary, Timothy. The preparation of blood serum for use. Studies in serum therapy. iii, 617.

Dunbar, Frank H., Leary, Timothy, and Watson, John W. Anaphylactic reactions to normal sera. Studies in serum therapy, iv, 618.

Dunham, F. L. Biologic analysis in the study of true epilepsy, 105.

Dunlap, A. M. The Chinese barber and his use of aural instruments, 438.

E

Edsall, David L. The bearings of industry on medical practice, 575.

Eisendrath, Daniel N., and Shultz, Oscar T. Ascending lymphogenous renal infection, 10.

Eliot, Charles W. The future of medicine, 631.

Elwyn, H. Basic principles in the symptomatology of Bright's disease, 251.

Emerson, Francis P. Changing methods and advances in the treatment of progressive deafness from chronic secretory otitis media, 583.

Esebuske, Claes Julius. Orthoarteriotony (a new form of pharmacodynamic energy): the biochemic explanation of its action, together with a contribution to the interpretation of its physiological mechanism, 799.

F

Faxon, Nathaniel W. The country doctor and the hospital, 167.

Freeman, G. F. Address, 632.

French, Ralph W. Clinical data of gall-bladder disease, 151.

Fulton, Frank Taylor. Acute carditis, 756.

G

Gardner, Edwin D. A case of Henoch's purpura, 118; Cholecyst-duodenal fistula, 523.

George, A. W., and Leonard, R. D. The roentgen diagnosis of the pathological gall-bladder, 375.

Gray, Horace, and Gray, K. M. Normal weight, 894. 714, 745, 818, 887, 922.
Gregg, Donald. The differentiation of psychotic from neurotic conditions, 904.
Giffin, Herbert Z. Observations on the treatment of myelocytic leukemia by radium, 686.
Gualine, Harold I. Paresis or dementia precox, 324.
Greenough, Robert B., and Duane, William. Report of results of radium treatment at the Collis P. Huntington Memorial Hospital by the Cancer Commission of Harvard University, 359.

H

Harmer, Torr Wagner. Spina bifida and allied malformations; based on an operative experience of 34 cases, 353; Tendon suture, 808.
Harrington, Thomas F. Occupational diseases in Massachusetts, 153; Industrial benzol poisoning in Massachusetts, 203; Tri-nitro-toluene poisoning in Massachusetts, 338; Anthrax as an occupational disease in Massachusetts, 867.

SUBJECTS.

A

Alcohol and human metabolism, 918.
American Doctors, welcome to, 55.
American Medical casualties in France, 709; Units, 63.
American Occupation of British field hospitals, 55.
American Public Health Association, war meeting of the, 300.
American Urological Association, New England branch of the, meeting in Boston, March 13, 1917, 451.
Animal Food Proteins, preparation of, for anaphylactic tests, R. P. Wodehouse and J. M. D. Olmsted, 85.
Anemia, treatment of pernicious, especially by transfusion and splenectomy, George R. Minot, M.D.; and Roger I. Lee, M.D., 761.
Annual Report of the Massachusetts Anti-Tuberculosis League—1917, Seymour H. Stone, 667.
Anthrax as an occupational disease in Massachusetts, Thomas F. Harrington, M.D., 867.
Anthrax in Massachusetts for the current year, 785.
Antiseptics, the position of, 329.
Anti-Tuberculosis Associations, war activities for, 855.
Army Medical Corps, preparations of United States, in Mexico, 95.
Arrhythmias, the significance of, and systolic murmurs in relation to cardiac efficiency, Henry A. Christian, M.D., 750.
Arterial Tension, the rationale of neurasthenia and of disturbances of, George Edward Barnes, A.B., M.D., 543.
Artificial Pneumothorax, some notes on, Paul H. Ringer, A.B., M.D., 50.
Ascending Lymphogenous Renal Infection, Daniel N. Eisendrath, A.B., M.D., and Oscar T. Shultz, A.B., M.D., 10.
Ayres, Edward A., M.D., obituary, 888.

B

Bacteriology at the front, 908.
Back lesions, the value of diagnosis in, James Warren Sever, M.D., 857.
Barany Tests, some observations on the, as applied to aviators, H. L. Babcock, M.D., 840.
Base Hospital, a report of service with the First Harvard Surgical Unit serving at a British, with the end-results of the cases one year later, Channing C. Simmons, M.D., 1.
Benzol Poisoning, industrial, in Massachusetts, Thomas F. Harrington, M.D., 203.
Berkshire District Medical Society, the founding of the, with notes on the first period of the existence of the Massachusetts Medical Society, Walter L. Burrage, M.D., 720.
Biologic Analysis in the study of true epilepsy, F. L. Dunham, M.D., 105.
Blood Destruction, the urobilin content of the feces as a measure of rate of, Francis H. McCrudden, M.D., 907.
Blood Serum, the preparation of, for use; studies in serum therapy, iii, Timothy Leary, M.D., and Frank H. Dunbar, M.D., 617; The use of normal, particularly with reference to the treatment of wounds; studies in serum therapy, ii, Timothy Leary, M.D., 611.
Book Reviews. Eye, ear, nose and throat, Howard C. Ballenger and A. G. Whippern, 776.
Focal infection, Frank Billings, 739.
A treatise on regional surgery, edited by John F. Binnie, M.D., 881.
Cerebellar abscess, Isidore Friesner and Alfred Braun, 775.
The diagnosis and treatment of heart disease, E. M. Brockbank, 739.
A compend of human physiology. Albert P. Brubaker, 124.
The growth of medicine from the earliest times to about 1800, Albert H. Buck, 422.
A text-book of first aid and emergency treatment, A. C. Burnham, 634.
Cornell University Medical College, studies from the department of physiology, 422.
Man, an adaptive mechanism, George W. Crile, 595.
Localization by x-rays and stereoscopy, Sir James Mackenzie Davidson, 739.
The influence of joy, George Van Ness Dearborn, 422.
Case histories in obstetrics, Robert L. De Normandie, 18.
Diseases of the stomach, Max Einhorn, 124.
Anatomical names, Albert C. Eycleshymer and Daniel M. Schoemaker, 197.
First-aid to the injured and sick: an advanced ambulance handbook, F. J. Warwick and A. C. Tunstall, 634.
An index of differential diagnosis, Herbert French, 124.
State Board questions and answers, R. Max Goepp, 19.
A chart of food values, Paul W. Goldsbury, 775.
Diseases of the genito-urinary organs and the kidneys, Robert H. Greene and Harlow Brooks, 226.
Organism and environment as illustrated by the physiology of breathing, John S. Haldane, 377.
A text-book of practical therapeutics, Hobart Amory Hare, 594.
Progressive medicine, Hobart Amory Hare and Leighton F. Appleman, 261.
Abnormalities of myocardial function, T. Stuart Hart, 226.
An introduction to neurology, C. Judson Herrick, 228.
The starvation (Allen) treatment of diabetes, with a series of graduated diets, Lewis Webb Hill and Rena S. Eckman, 87.
The institutional care of the insane in the United States and Canada, edited by Henry M. Hurd, 669.
The Basle anatomical nomenclature, E. B. Jamieson, 124.
The treatment of war wounds, W. W. Keen, 813.
Diseases of the stomach, intestines and pancreas, Robert C. Kemp, 124.
Health in the camp, H. R. Kenwood, 669.
Health and disease, their determining factors, Roger I. Lee, 297.
Clinical and laboratory technic, H. L. McNeil, 669.
The medical clinics of Chicago, 123.
The medical clinics of Chicago, 456.
The pathology and differential diagnosis of infectious diseases of animals, Veranus Alva Moore, 595.
Traumatic surgery, John J. Moorhead, 159.
General surgery, Albert J. Ochsner, 197.
Pulmonary tuberculosis; a handbook for students, Edward O. Otis, 706.
The epidemic of poliomyelitis in New York City

in 1916, based on the official reports of the bureaus of the department of health, 87.
Clinical tuberculosis, Francis Marion Pottenger, 297.
Social diagnosis, Mary E. Richmond, 17.
Modern medicine and some modern remedies, Thomas Bodley Scott, 706.
Obstetrics, normal and operative, Georges Peaslee Shears, 813.
Manual of chemistry, W. Simon and Daniel Base, 456.
Who is insane?, Stephen Smith, 297.
Dr. Lyman Spalding, James Alfred Spalding, 705.
A manual of pharmacology, Torald Sollmann, 18.
The adolescent period, Louis Starr, 706.
Food for the worker, Frances Stern and Gertrude T. Spitz, 634.
The surgical clinics of Chicago, February, 1917, 159.
The surgical clinics of Chicago, April, 1917, 159.
Applied immunology, B. A. Thomas and R. H. Ivy, 661.
Diseases of children, George M. Tuttle and Phelps G. Hurford, 53.
Practical urinalyses, B. G. R. Williams, 669.
Pharmacology and therapeutics for students and practitioners of medicine, Horatio C. Wood, Jr., 494.
Clinical gynecology, James C. Wood, 422.
Studies from the Rockefeller Institute for Medical Research, 917.

Botulismus, report of two fatal cases, Rene Bine, M.D., 559.

Bright's disease, basic principles in the symptomatology of, H. Elwyn, M.D., 251.

Brunton, Sir Thomas Lauder, Bt., M.D., C.M., D.Sc., LL.D., F.R.C.P., F.R.S., obituary, 337.

Burns, the modern treatment of, with especial reference to severe burns and to the use of ambrine and its substitutes, Edward Hammond Risley, M.D., 343.

C

Camouflage, 198.

Cancer, mesothorium and combination methods in the treatment of, F. D. Donoghue, M.D., 365.

Cancer Decalogue, a, 55; Prepared by the standing committee on the control of cancer of the Massachusetts Medical Society, 62.

Carbon Dioxide and ventilation, 814.

Carcinoma, radium treatment of bladder and prostatic, B. S. Barringer, M.D., 444; of the umbilicus, M. G. Wohl, M.D., 442; report of treatment of, of cervix at the Huntington Hospital for period of four years, Edward H. Risley, M.D., and George A. Leland, Jr., M.D., 891.

Cardiac Efficiency, the significance of arrhythmias and systolic murmurs in relation to, Henry A. Christian, M.D., 750.

Carditis, acute, Frank Taylor Fulton, M.D., 756.

Catarrhs, seasonal, 598.

Cesarean Section, the technic of abdominal, and a report of sixty cases, Robert C. Cochrane, M.D., 410.

Children, diagnosis of tuberculosis in, Henry D. Chadwick, M.D., and Roy Morgan, M.D., 138.

Chinese Barber, the, and his use of aural instruments, A. M. Dunlap, M.D., 438.

Ciliey, Orran George, M.D., obituary, 889.

Civil Service, United States examinations, 389, 747.

Clapp, Arthur Martin, M.D., obituary, 747.

Clinical Congress, the war meeting of the, 670; Resolutions of the, of surgeons of North America, 714.

Clinical Viewpoint, the vegetative nervous system from the, Malcolm S. Woodbury, M.D., 695.

Communicable Diseases in Massachusetts in 1916–Resume of, for June, 1917, 130; For July, 1917, 304; For August, 1917, 534; September, 1917, 676.

Community Health and tuberculosis demonstration at Framingham, Donald B. Armstrong, M.D., 660.

Consumptives, what becomes of the discharged? Miss Bernice M. Billings, 664.

Correspondence, Concerning certain medical advertisements, Charles Bolduan, 308; Verbum sapientibus, Vincent Y. Bowditch, M.D., 610; Tuberculosis in the army, Philip King Brown, 134; Examination of troops for tuberculosis, G. E.
